

## **FACULTY POSITION IN EPIGENETICS AT THE UNIVERSITY OF GEORGIA**

The Department of Genetics at the University of Georgia invites applications for a tenure-track, assistant professor, faculty position in mammalian epigenetics. UGA is strong in plant and fungal epigenetics and chromatin biology, and complementary expertise and an interest in collaborating to translate findings from non-mammalian models to mammals and humans will be an advantage.

The successful candidate will hold a Ph.D. or equivalent, have at least one year of postdoctoral experience, and hold or expect to hold significant external research funding. Teaching will involve undergraduate advanced genetics, and a contribution to graduate teaching and training. For information about the department, see <http://www.genetics.uga.edu>.

Please submit applications online at <http://facultyjobs.uga.edu/postings/1413>. Applications, as a single PDF file, should include a cover letter, CV, and no more than 2 page (each) statements of research and teaching interests. Teaching interests should address how the applicant incorporates the National Academy/AAAS "Vision and Change" core concepts in their teaching. Applicants will be asked to provide names and e-mail addresses of three letter-writers who will receive an online link for submitting letters of reference. Review of applications will begin on November 18, 2016 and continue until the position is filled. Informal enquiries and questions may be addressed to the chair of the search committee, Bob Schmitz ([schmitz@uga.edu](mailto:schmitz@uga.edu)).

The University is an Equal Opportunity/Affirmative Action/Vet/Disability institution. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability, gender identity, sexual orientation or protected veteran status. The Franklin College of Arts and Sciences, its many units, and the University of Georgia are committed to increasing the diversity of its faculty and students, and sustaining a work and learning environment that is inclusive. Women, minorities and people with disabilities are encouraged to apply. Faculty members are expected to support the college's goals of creating and sustaining a diverse and inclusive learning environment. Georgia is well known for its quality of life in regard to both outdoor and urban activities (<http://exploregeorgia.org>). UGA is a land- and sea-grant institution located in Athens, 70 miles northeast of Atlanta, the state capital ([www.visitathensga.com](http://www.visitathensga.com); [www.uga.edu](http://www.uga.edu)).
