The Department of Physics and Astronomy at the University of Georgia has an opening for a tenure-track assistant professor in Computational Astrophysics with an anticipated start date of August 2020. The Department is expanding into a number of the National Science Foundation’s 10 Big Ideas for research areas, including Multi-Messenger Astronomy (MMA). We are particularly interested in candidates with expertise in neutron star merger/kilonova modeling, hydrodynamical simulations, and related areas. However, outstanding candidates in all fields of computational astrophysics will be considered. Currently the department has 24 faculty members, five of whom work in astronomy and astrophysics. Specialties include radio, UV, and X-ray observations of the interstellar medium, infrared observations of disks, hydrodynamical and spectral simulations of interstellar gas, and atomic and molecular laboratory astrophysics. UGA is uniquely located within short drives to Oak Ridge National Laboratory (NL), Savannah River NL, Marshall Space Flight Center, and Atlanta. The Department has a strong commitment to undergraduate and graduate education. The new hire will be expected to contribute effectively to our teaching effort and to develop a vigorous, externally funded research program. A Ph.D. in astronomy, physics, or related field with at least one year of postdoctoral experience is required. To apply for this position, please upload a cover letter addressed to Prof. Robin Shelton, the Chair of the Search Committee, along with a CV, statements of research and teaching interests, and names and contact information of three references to (http://www.ugajobsearch.com/postings/126115). Review of applications will begin on December 12, 2019 and all applications received by that date will receive full consideration. The Franklin College of Arts and Sciences, its many units, and UGA are committed to increasing the diversity of its faculty and students, and sustaining a work and learning environment that is inclusive. Women, minorities and people with disabilities are encouraged to apply. UGA is an Equal Opportunity/Affirmative Action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, ethnicity, age, genetic information, disability, gender identity, sexual orientation, or protected veteran status. Persons needing accommodations or assistance with the accessibility of materials related to this search are encouraged to contact Central HR (hrweb@uga.edu). Please do not contact the Department or search committee with such requests.
